Creative and detail-oriented professional with over three years of experience in video editing, graphic design, photography, videography, and cinematography. Proficient in using industry-standard software such as Adobe Photoshop, Lightroom, After Effects, Premiere Pro, and DaVinci Resolve. Skilled in leveraging AI tools to enhance productivity and output quality. Proven track record of delivering high-quality work for diverse clients including Chetan Garud Productions, Times Marathi, and Mai Boli, currently enhancing visual storytelling at The World of Chhatrapati Studios.

_____

Experience

Video Editor, Graphic Designer, Photography, Cinematographer
At, The World of Chhatrapati, Mumbai City, Maharashtra

May 2021 – Present

As a versatile and creative multimedia professional, I have accumulated over three years of hands-on experience in video editing, graphic design, photography, videography, and cinematography. I currently apply my expertise at The World of Chhatrapati Studios, where I manage a variety of visual projects from concept to completion. My portfolio includes collaborations with renowned companies such as Chetan Garud Productions, Times Marathi, and Mai Boli. My proficiency with industry-standard software, combined with my ability to leverage AI tools, allows me to produce high-quality content efficiently and creatively.

- Editing and retouching photos and videos to meet the highest standards of quality and client specifications.
- Assisting in the development of visual concepts for a wide range of projects including films, documentaries, and promotional videos.
- Utilizing advanced software such as Adobe Photoshop, Lightroom, After Effects, Premiere Pro, and DaVinci Resolve to create and refine multimedia content.
- Incorporating AI tools to streamline and enhance the creative workflow, boosting efficiency and output quality.
- Utilized Adobe Creative Suite and DaVinci Resolve to produce high-quality multimedia content, from concept to final edit.
- Photographed and filmed diverse subjects, ensuring high-quality visual storytelling across various platforms.
